Neural Network Learning Module Suggested Readings

XCS224N Natural Language Processing with Deep Learning

1 Suggested Readings

- 1. Matrix Calculus Notes
- 2. Review of differential calculus
- 3. CS231N notes on network architectures
- 4. CS231N notes on backprop
- 5. Derivatives, Backpropagation, and Vectorization
- 6. Learning Representations by Backpropagating Errors (seminal Rumelhart et al. backpropagation paper)
- 7. Yes you should understand backprop
- 8. Natural Language Processing (Almost) from Scratch
